DOTG-75-AEM

Material Description:

Addit DOTG-75 is a AEM polymer bound curative with 72% active content. It is Granular form. It is easily disperse in the compound and reduces heat buildup during mixing.

Properties:

Sr. No	Description	Typical Values
1	Appearance	White to light yellow color granules
2	Density (g/cc)	1.1 Approx.
3	Volatile Content	0.5 % Max.
4	Active Content	72 \pm 1.5%
5	Ash Content	1% Max.
6	Shelf Life	Two Years

Application:

It is used as accelerators like AEM, HT-ACM, CR and EPDM etc.
It provides best compression in AEM / HT-ACM.

Typical Dosage Level:

HT-ACM - 0.8 to 1.2 phr AEM - 3 to 6 phr

Safety & Toxicity: Kindly refer SDS.

Packing: 20 Kgs Bag & 5 Kgs Bag.
